SOURCE

1. On 24 November 1952, the Abteilung Ingenieur-Bau (VVB Entwurf) (Drafting Section of the Engineering Construction Department) of the State Secretariat for Building at 1 Koellnischer Park, Berlin C 2, began plans for a briquette plant in Konin (P 53/O 18). The preliminary project was to be submitted to the State Secretariat for Coal on 23 December 1952.
2. The project included the briquette plant, a coking plant, a low-temperature distillation plant, a tar distillation plant, a power station, and a machine shop.
3. The power plant will be constructed by the VVB VEM at 59/61 Behren Strasse, Berlin W 8; 340 kw per hour will be required for lighting the briquette plant. 1
4. All technical documents needed for the projecting work will be supplied by the State Secretariat for Coal. The capacity of the plant is still unknown. 2

25X1A

1. Comment. Probably the scheduled 24-hour consumption.
2. Comment: A dephenolization installation is also planned in connection with the briquette plant.
